NICHOLAS VINCENT II, *on behalf of
himself and all others similarly situated,*

PLAINTIFF,

v.

THOMAS JEFFERSON UNIVERSITY,

DEFENDANT.

Case No. 5:24-cv-1561

**DECLARATION OF JUSTIN PARKS OF A.B. DATA IN SUPPORT OF PLAINTIFF’S
MOTION FOR PRELIMINARY APPROVAL OF CLASS ACTION SETTLEMENT AND
TO DIRECT NOTICE TO THE PROPOSED SETTLEMENT CLASS**

I, Justin Parks, declare and state as follows:

1. I am a Vice President of A.B. Data, Ltd.’s Class Action Administration Division (“A.B. Data”), whose Corporate Office is located in Milwaukee, Wisconsin. A.B. Data has been retained by Plaintiff’s Counsel (referred to herein as “Class Counsel”) to act as Settlement Administrator in this case after a competitive bidding process. I am fully familiar with the facts contained herein based upon my personal knowledge.

2. A.B. Data has implemented and coordinated some of the largest and most complex class action notice and administration plans in the country. The scope of our work includes notification, claims processing, and distribution plans in all types of class actions.

3. A.B. Data has been appointed as notice, claims, and/or settlement administrator in hundreds of large consumer, antitrust, securities, ERISA, insurance, and government agency matters. A profile of A.B. Data’s background and capabilities is included as **Exhibit A**.

4. In consultation with Class Counsel, I prepared a proposed notice and administration plan for this litigation. This Declaration will describe the proposed notice plan (“Notice Plan”) and

how it will meet the requirements of Rule 23 of the Federal Rules of Civil Procedure (“Rule 23”) and provide due process to potential Settlement Class Members. This Declaration is based upon my personal knowledge and upon information provided to me by Class Counsel, my associates, and A.B. Data staff members.

NOTICE PLAN

5. The objective of the Notice Plan is to provide notice of the proposed Settlement to potential Settlement Class Members. The Settlement Class is generally defined as:

All enrolled students at Thomas Jefferson University during the Spring 2020 semester who paid any Tuition and/or Fees, or who were credited with having paid the same and who were registered for at least one in-person class at the beginning of the Spring 2020 semester.

6. A.B. Data will provide the notice required under the Class Action Fairness Act, 28 U.S.C. § 1715(b) (“CAFA”) no later than ten (10) days following the filing of the Settlement with the Court.

7. The Notice Plan includes sending the Short-Form Notice via email and, to the extent A.B. Data is unable to locate working email addresses for any potential Settlement Class Members, by First-Class Mail.

8. In advance of sending the Short-Form Notice via email, A.B. Data will perform several tasks to maximize deliverability and avoid SPAM and junk filters. These tasks include running the list of recipient email addresses through a deliverability analysis to ensure the email addresses are valid and working with our contacts at the email service providers to develop sending strategies to achieve optimal deliverability. A.B. Data will also incorporate certain best practices to maximize deliverability, such as excluding words or phrases known to trigger SPAM or junk filters, not including attachments to the email, and sending the emails in tranches over a period of days or weeks.

9. To the extent we are unable to locate working email addresses for any potential Settlement Class Members, or where email addresses are determined to be invalid, A.B. Data will

use the last known addresses available for those potential Settlement Class Members to send the Short-Form Notice via First-Class Mail.

10. In advance of initiating direct mail notice, A.B. Data will process all mailing addresses through the national change of address (“NCOA”) database and, using any updated information available, will send the Short-Form Notice directly to those potential Settlement Class Members. Further analysis will be done of any mail returned as non-deliverable after using the NCOA database, and follow up direct mail notice will be provided where appropriate.

11. Both notice types will be in the form approved by the Court.

TELEPHONE AND WEBSITE

12. To assist potential Settlement Class Members in understanding the terms of the Settlement and their options, A.B. Data will establish a case-specific toll-free telephone number and website.

13. The case-specific toll-free telephone number will be equipped with an automated interactive voice response system. The toll-free telephone number will appear in the Short-Form and Long-Form Notices. The automated interactive voice response system will present callers with a series of choices to hear prerecorded information concerning this Action. If callers need further help, they will have an option to speak with a live operator during business hours.

14. A.B. Data will also implement and maintain a case-specific website for this matter. The website will provide, in downloadable format, the following: (i) the Long-Form Notice; (ii) the Preliminary Approval Order; (iii) the Settlement Agreement (including all exhibits); (iv) a question-and-answer section to anticipate and answer Settlement related questions from potential Settlement Class Members; (v) contact information for the Settlement Administrator, including the toll-free number, as well as for Class Counsel; (vi) all preliminary and final approval motions filed by the Parties, and any orders ruling on such motions; and (vii) any other materials agreed upon by the Parties and/or required by the Court. The website will be secure, with an “https” designation.

CONCLUSION

15. It is my opinion, based on my individual expertise and experience, and that of my A.B. Data colleagues, that the proposed Notice Plan described herein is designed to effectively reach potential Settlement Class Members. The proposed Notice Plan will deliver plain language notices that capture potential Settlement Class Members' attention and provide them with the necessary information in an informative and easy to understand manner to ensure they effectively understand their rights and options. This proposed Notice Plan conforms to the standards employed by A.B. Data in similar notification plans. For all these reasons the proposed Notice Plan is the best practicable under the circumstances and satisfies the requirements of Rule 23 of the Federal Rules of Civil Procedure and due process.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed this 8th day of May 2025 in Minneapolis, Minnesota.

Services

All Digital — From Notice to Distribution

A.B. Data is uniquely positioned to design, implement, and maintain notice and settlement administration programs using an innovative, "all-digital" approach that replaces the more traditional and less efficient methods of administration, such as newspaper ads, mailed notices, and paper checks. Many of our recent proposed notice plans and claim programs utilize the latest technologies such as microtargeted digital ads for notice, streamlined online claims, and distributing settlement funds electronically using a digital paywall. These methods provide significant cost savings, are consistent with the amendments to Rule 23 that are now in effect, and importantly provide much-needed alignment of class action notice and administration with current consumer behaviors.

Pre-Settlement Consultation

The pre-settlement consultation is a collaborative session designed to help A.B. Data clients prepare a stronger case. Our support teams simplify the task of sorting through a maze of documents during investigation and discovery, streamlining the process and preserving fund assets. From there, we assist with fully interactive media packages for court presentations and settlement negotiations. A.B. Data works closely with our clients, offering expert testimony on documents, processing, class and notice manageability, and proposed plans of allocation.

Media Services

A.B. Data continues to earn our reputation as the early innovator in integrating advanced micro-targeting techniques, including contextual targeting, behavioral targeting, and predictive modeling. Coupled with inventive digital media strategies to drive claims, case-specific banner ad development, class member research, and comScore analysis services, our multi-tiered media programs are designed to cost-effectively deliver notice to potential class members and increase claims rates.

Notice Administration

In A.B. Data, clients have a comprehensive resource with a depth of experience in direct notice. Our compliance and understanding of Rule 23 of the Federal Rules of Civil Procedure are crucial in meeting the "plain language" legal requirements for any campaign. From our sophisticated digital media capabilities and extensive global experience with class member research, our experts create notice documents that are easily understandable and cost-efficient to produce. We consult with our clients to deliver notice documents from multi-page, mailed, or emailed notice packets to concise postcards that establish the most influential and cost-effective means of communicating with potential claimants.

Claims Processing

A.B. Data continues to bring game-changing technologies to improve the speed and precision in claims processing. Our robust system for online claims submissions allows us to meticulously verify data and documentation, preserve and authenticate claims, and calculate and verify settlement amounts. In addition, our data network infrastructure includes on-site data storage, backup, contingency plans, and security for electronic and hard copy claim filings. It is all part of a total commitment to be the most innovative and comprehensive resource in the industry. At A.B. Data, we take pride in having the in-house capacity to process millions of pages, as well as the organizational integrity to treat every claim as if it were the only one.

Contact Center

A.B. Data's Contact Center is comprised of a full staff that is trained on and equipped with online and telecommunication systems to monitor and connect with class members. Associates routinely monitor class member communication for all class action administrations, including antitrust, consumer, and securities.

Utilizing monitoring software, associates watch multiple social media channels simultaneously, allowing for instantaneous routing of inquiries and interaction with claimants. Detailed and concise analytical reports outlining Contact Center activities are always provided.

Our Contact Center and case websites are capable of handling millions of class member engagements, as recently displayed in a campaign which garnered over 1.2 million website visits in two months and had more than 72,500 Facebook engagements. Facebook comments and threads are monitored and claimants are guided to the website for more information. Google AdWords and display advertising have also brought hundreds of thousands of visitors to various case websites.

A.B. Data's Contact Center also has Spanish language associates in-house and we can accommodate any language, given proper lead time. Traditional call center facilities are also available, if needed.

Case Websites

We offer a state-of-the-art technology platform that supports every step of our class action administration process. Our expert marketing professionals design customized case-specific websites that provide potential class members easy access to case information, critical documents, important deadlines, as well as the capability to file claim forms and register for future mailings about the case. Claimants can use the website to elect to receive their settlement payments by mail or by one of several digital payment options, all accessible by mobile devices.

Settlement Fund Distribution

From complete escrow services to establishment of qualified settlement funds, check printing and mailing, electronic cash or stock distribution and tax services, A.B. Data has always provided a full-service solution to Settlement Fund Distribution. Our IT team has decades of experience in developing and implementing fast, secure databases and claims administration systems that ensure class members receive the correct amount in their settlement disbursement.
